DETAILED ACTION

Response to Amendment

Claim Objections

Claim 2 is objected to because of the following informalities: at line 10, the word "eac" apparently should be - - each - -. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8, 9-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 recites the limitation "the data sent by the fixed stations" in lines 3-4. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "the method" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claims 10-16 are also rejected for incorporating the deficiencies of their base claim.

Allowable Subject Matter

Claims 1-8, 17 are allowed.

The prior art fails to disclose a device for positioning and controlling rail vehicles comprising fixed stations comprising a first signal transmitter and receiver; each rail vehicle comprises second signal transmitter and receiver containing a specific identifier of the transmitter and at least one message, the signals transmitted by the first transmitter and receiver of the fixed stations contain a specific identifier of the transmitter and at least one message, the central control station sends rail operation control orders, each rail vehicle and each fixed station include processor for determining the identifier and at least the message of each signal received, the signals of the first and second transmitter and receiver are non-sinewave radio signals with a very large passband whereof a frequency spectrum ranges between 1 and 10 GHz. These limitations are neither taught nor obvious by the prior art of record.

Response to Arguments

Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
